

ACTIV IS THE NEW FRESH

Masking Odors Is Not The Solution

Activ FRESH

Neutralizes and Absorbs Odors

An environmentally friendly biodegradable product used extensively in industrial, commercial, residential and recreational areas. Designed to encapsulate and neutralize all odors, irritating fumes and volatile organic compounds.

Activ™ FRESH

**A Unique Odor
Neutralizer and
Absorber Not
an Odor Mask.**

Especially effective against mold and mildew, any type of smoke or smoke damage, animal odors & bedding, stale closed-up stagnant odors, hydrogen sulfide, gas and diesel fumes, formaldehyde, all VOC's (volatile organic compounds) all noxious irritating odors and offensive gases. It significantly reduces odors and corrosion in collection systems, electrical control boxes and throughout the sewer plant and administration offices.

Activ™ Fresh is basically odorless after 12 hours. Your odor or VOC's will be gone. Lasts anywhere from 45 to 60 days depending on the odor loading. **Activ™ Fresh** shrinks as it absorbs and neutralizes odors and fumes. The heavier the odor, the faster it is used. **Activ™ Fresh** will shrink down to about 12% of its initial size and then should be replaced. This environmentally friendly product can be easily disposed of by throwing it in the trash. Once odors are under control **Activ™ Fresh** will shrink at a slower rate extending its life.

Activ™ Fresh Has Not Met An Odor It Cannot Beat.

Activ™ Fresh is used in the following applications: Life Science & Research Medical Facilities, Sewage Treatment plants and collection systems, food processing plants, trash dumpsters, nursing homes, hospitals, funeral homes, restaurants, catering halls, hotels, office buildings, homes, vacation condos, motor homes, boats, RV's, basements and anywhere mold and mildew is a problem, toll booths, EMT vehicles, police cars, veterinary offices, animal shelters, beauty parlors, gyms, health clubs, locker rooms, fire restoration and smoke damage, cigarettes, cigar and pipe smoke, dorm rooms, problematic real estate listings, auto paint shops and anywhere VOC emissions are a problem.

**Environmentally
Friendly
Biodegradable
Non Hazardous**

"As a fire and flood restoration specialist, lingering odors have been my largest problem. Over the years, I have used many products that claimed to eliminate odors only to find their effectiveness was short lived. After installing Activ™ Fresh into the sites I found the odors to be completely eliminated, as a bonus the mold levels dropped considerably."

Bill Franz
Project Manager

Recommended Treat Levels

Approximations depend on the initial odor or VOC levels.

35 lb. Pail - Covers 1,800 sq. ft. plus

Recommended for sewer, collection systems, wet well pumping stations, food processing plants and other industrial applications.

4 lb. Container

Light to medium odors or VOC's

1 - 4 lb container covers 600 to 800 sq. ft.

Heavy odors or VOC's

2 - 4 lb container covers 600 to 800 sq. ft.

1/2 lb. Container

Light odors or VOC's

1 - 1/2 lb container covers 150 to 200 sq. ft.

Medium odors or VOC's

2 - 1/2 lb container covers 150 to 200 sq. ft.

Heavy odors or VOC's

3 - 1/2 lb container covers 150 to 200 sq. ft.
